Career Objective

Seeking a challenging ERPNext Consultant / Implementer role where I can apply my technical knowledge, business insight, and implementation experience to deliver customized ERP solutions that improve operational efficiency, strengthen process control, and support digital transformation for growing organizations.

Experience

ERPNext Consultant **03/2026 – Present**

Accurate Systems

- Implemented and configured ERPNext across Accounting, Inventory, Purchasing, Sales, HR & Payroll, Projects, Manufacturing, and Asset Management.
- Gathered requirements, mapped business processes, performed data migration and system testing, and provided user training and go-live support.
- Analyzed business requirements and translated them into practical ERPNext solutions to improve operational efficiency, process control, and reporting.

ERPNext Implementer **01/2025 – 03/2026**

Data Value

- Implemented and customized ERPNext systems across various business domains.
- Conducted business process analysis and gathered client requirements.
- Provided user training, documentation, and post-implementation support.

ERPNext Implementer **06/2024 – 01/2025**

ERPNext.Cloud.Systems

- Delivered ERP implementations for SMEs with a focus on system configuration and process optimization.
- Trained end-users and offered on-site support across ERP modules.
- Participated in functional testing and resolved issues during system rollouts.

Technical Support Staff **06/2023 – 05/2024**

PETROJET

- Provided technical support for software and hardware issues across the organization.
- Utilized Microsoft Office and Excel to manage data and generate reports.
- Gained hands-on experience with SAP ERP, contributing to administrative and support operations.

Academic Education

Bachelor's Degree in Commerce

Suez University

2018 – 2022 | Grade: Good+
